

“By What Authority”

Have you ever heard anyone say, “Who gives them the right to tell me what to do?” This is a common saying in our world today and it is due to the lack of belief that God is in charge of the Universe. Here is the possible ways that a person can think and the path that each way of thinking leads to. We as Christians must keep ourselves and our families on the right path.

A Godless society will never be in a good state ^{of} order. There will always be some chaos. Society needs the leadership of God.

A Godless child will never find the happiness that comes with order. Their life will have chaos and they will never really understand why. There is ONE way of thinking that leads to peace and happiness and that is the way of the Lord.

May our children and our nation believe in the Almighty God of Heaven who created the Earth and has given power to those in places of authority. May we be submissive to these powers as unto the Lord.
